Super's Report

Phil Hottmann
Division Superintendent

It was great to see the return of TrainFest. I believe it has been four years since the last one. Even though the show was smaller than years past there were very large crowds on Saturday. Parking and concessions were a big issue. It seemed like everyone was very glad to see the layouts and vendors once again. I did notice that some of the notable vendors were not at the show. We believe this was due to the recent success of e-commerce business. I was very encouraged to see the variety of attendees at the show. From younger people with their parents to young adults. Even though the crowd was primarily older male adults I still believe the hobby is here for the foreseeable future.

If you didn't attend our last meeting, you missed a great one. Ken had two excellent clinics featuring Peter Schierloh and Keith Kohlmann. Peter's perspective on bridges was so interesting. And Keith's information regarding securing of open loads was very valuable. I'll definitely pick up his book.

I want to thank "OV" Othmar Vorburger for volunteering to be part of the Estate Planning Group. Webb has done a wonderful job over the many years and is looking forward to being replaced. We'll need more volunteers in the future as our group gets older. Thanks again OV!

We will be having a joint meeting with RRVD for the May meeting. This year it will be held in Rockford. They usually have a very good meeting along with some great layout tours. I hope you all plan to attend.

Layout Tours

Phil Hottmann Chair

For the November meet we were able to visit Keith Thomsen's layout. Keith always does great work, so it was good to see this layout again. The Pennsy was looking good and running great! Now that Keith is retired, I can't wait for more of his scenery to be completed.

For December we will be visiting Don Swinton's Donaldo, Barbstown and Southern RR. I hope you all make it out for the tour.

Clinic Column

By Ken Hojnacki

I hope everyone enjoyed Pete Schierloh's program on Soo Line Bridges—he really deals with some unusual situations and gave us some interesting insights on bridges. Keith Kohlman also packed a lot into his freight car loads clinic. I need to get that book from Kalmbach.

To end this year, we will start with Frank Wolf introducing us to the Milwaukee & Mississippi Railroad, the first railroad in Wisconsin built thru Mazomanie beginning in 1845. The first train arrived in Mazomanie in 1856 and the depot, built in 1857, is now the oldest frame depot in Wisconsin and used as a library by the Mazomanie Historical Society. Frank will walk us through its construction and history, focusing on the Mazomanie area and upcoming plans for a model railroad display.

We have all heard about the aging of the NMRA and concerns about bringing in new members and our Board has been looking at new ways to attract members. The model train industry has also changed significantly since the height of the pandemic and there has been an increase in people joining the hobby but not necessarily the NMRA. James Knabb will chat about what types of new modelers are out there and how to get them to join the NMRA. He will also discuss what other Divisions and clubs have been doing to stay active and attract new members. Some things to think about as our Rail Show introduces new folks to our great hobby.

Modeling Project

Mike Vivion

We had a pretty good number of members sign up for this year's modeling project. If you signed up, please see me at the December meeting to pick up your snow material, and pay your \$10 deposit, if you have not already paid me.

Also, a reminder that the rules for this year's project are now posted at the SCWD website under the "Contests" category. There are also links to a number of YouTube videos to provide you with suggestions and ideas for the modeling project.

See you on December 4th.

A Puzzle for You

You like trains, or train watching, but have you ever wanted to go to an OPS (Operating Session) and run trains on someone else's layout, but were afraid you wouldn't know what to do?

Model Railroad Operation is a fun and interesting role-playing game where the players (operators) use model trains to simulate the movements of the prototype railroad. Operators fill the roles of railroad employees like engineers, conductors, yardmasters, dispatchers, and more. Many of our SCWD members participate each month at multiple layouts to enjoy this fun and stimulating practice of critical thinking and problem solving in the context of railroad operations.

Now, there is a way for you to get your feet wet in this critical thinking and problem-solving railroad environment in the privacy of your own home through the use of railroad switching puzzles.

In July 2020, a group of SCWD members started a project to introduce more of our members to the enjoyment of railroad operations, or as our wives call it, playing trains. Some of us have been engaged in operating sessions for 20 years or more, and would like to get more of you involved.

The project involves getting one to solve a series of train switching puzzles (on paper, or your computer) in the least number of moves possible. You can then submit your solution to see if yours was done in the least number of moves.

Beginners can start with **3 introductory puzzles** to show the kinds of skills used in railroad switching operations. Then, you can advance to a series of more advanced puzzles written and based on actual SCWD member area layouts. Or, if you have already been to an OPS session, you could do an introductory puzzle, and jump right into the more challenging ones.

Join the SCWD listserv now and begin learning what this is all about!

Email Steve Lanphear at scwdmemberlist@frontier.com to be added to the list and start receiving your puzzles now!

Happy Railroading!

The 2023 National Convention is the [Texas Express](#), to be held August 20-26, 2023 in Grapevine, Texas in the greater Dallas-Fort Worth area. The venue is the [Gaylord Texan Resort and Convention Center](#):

Check the [convention website](#) for up-to-date information. Please note that the \$100 surcharge that was listed for those attendees who do not wish to stay at the Gaylord **was removed**. The surcharge was typically used in past Lone Star Region Conventions, and it was inadvertently added to the 2023 National Convention registration. We realize this caused some angst among members, and we do apologize.

The 2023 Texas Express Committee is looking forward to seeing y'all in Grapevine!

Volunteers Needed

The NMRA is run by volunteers. Get involved by contributing your expertise and time.

Meetings and Trade Shows Department

The NMRA is seeking expressions of interest in the role of Manager, Meetings and Trade Shows, a key member of our operational team who is responsible for working with local host committees to deliver the annual national convention and Train Show. We are ideally looking for someone with experience in the events or hospitality industry, who is comfortable with negotiating with a number of vendors and advising host committees. The role is supported by a team of experienced volunteers, however all department heads are encouraged to grow their team. This is a volunteer role with a commitment to attend the annual convention and NTS as well as to undertake site visits as required. Expressions of interest should be made to the President at president@nmra.org

Marketing Department

The Marketing Department is looking for women who participate in any aspect of our hobby to please consider writing an article for the NMRA Magazine. The Women in Model Railroading series was quite popular and we would like to revive it. Articles should be approximately one page long, and please include a high resolution photograph of yourself. All submissions can be sent to marketing@nmra.org.

Fundraising Committee

The NMRA has recruited an experienced team of fundraising experts and we now seek a person to coordinate the efforts of this group. The role will involve ensuring the efficient running of committee meetings and tracking the work that is being done by committee members. Close liaison with the national HQ team and the CFO is essential. This role would work closely with Eastern District Director John Doehring who has led the effort to grow this essential organization activity. Contact him at eastdir@nmra.org.

New Volunteers

All NMRA Departments are actively recruiting new volunteers year-round, so if you want to share your experience & skills and help the NMRA deliver something you are really passionate about, then please reach out to me.
